SIP Express Media Server

- High Performance Media & App Server / Switch / SBC

- Free/Open Source, since 2003, from the same team as SER (Kamailio) at Fraunhofer FOKUS

- C++, C, some Python, own DSL ("DSM")

FRAFOS

Some Products using SEMS

- FRAFOS' ABC SBC

- Sipwise's SIP:Provider (SPCE / C5)

- Yeti-switch.org

SOFTSWITCH FOR HUMANS

SEMS + Ruby on Rails + PgSQL

WEB PANEL — TRAFFIC MANAGEMENT LAYER — DATA STORAGE

SWITCH

yeti-switch

- Separated logic from switching: Rateplans, Routing groups, LNP etc set through GUI

- 'logic control' modules for SBC app, Call profile from PgSQL

- Rewritten CDRs, codec negotiation, added alarms

FRAFOS

Upcoming for SEMS...

- Release 1.6.0 from current master

- Finish moving to github (committers, tracker), restore pkg-builds

- Collect fixes from ABC SBC, yeti, … into 1.6.1

- Extend platform functionality: DSM language, REST API, SIP stack, …
